

AUSSIE FISH

The Aussie Fish is a Semi Fish design. It has much less volume in the nose than the traditional old school Fishes that were designed in the US. The Semi Fish design means that it is a cross between a performance shortboard and a true fish design. It is a great board to ride in small to medium surf. It paddles easily and will help you make the most of being on the face of the wave. The board features a single concave bottom that delivers extra speed and drive while turning. This year we have upgraded the glass job to be more performance orientated. The Aussie Fish is probably the biggest sleeper of the range. It rides well and outperforms expectations consistently.

All boards are glassed with a 2 x 4oz deck and 1 x 4oz bottom with a patch on the fin area. This year the boards have been upgraded to a pro finish and they come standard with FCS M3 or 5 Glassflex Series fins. 3s on the smaller ones and 5s on larger models

Blue Rail with Light Blue Deck Fade

Clear + Decals

Green Rail with Green Deck Fade
