

ÜBER FISH

The Über Fish is designed for Stand Up Paddle surfers who have progressed in their ability and want to add another element to their surfing.

In small to medium sized waves, you will find the Über Fish performs sensationally. It is very responsive indeed. The board also features 3/4 length deck traction that is recessed into the board. The Epoxy construction allows the board to be light weight for its size and very durable.

It comes standard with a Quad set of FCS fins but also comes with a centre fin box so can be ridden with a variety of fin options.

9'8" Über Fish
