

FUNBOARDS

6'8" A worldwide favourite, the 6'8" is a versatile design that packs a punch. Experts will be surprised at the performance and balance, not too big, not too small. Intermediates will love the forgiving characteristics and surfability. A great choice as a first board for the groms or surfers looking for a full body design to put the fun back into their surfing.

7'2" The 7'2" is a racy fun shape that caters to a wide range of riders. It's a well balanced board that surfs great regardless of your skill. Whether you are an experienced surfer looking for a fuller fun shape or a novice wanting a little more size for comfort, this design has become a favourite in the NSP range.

LENGTH	WIDTH	THICK	WEIGHT RANGE	\$
6'8"	21"	2 3/4"	← 65kg / 140lbs	\$575
7'2"	21"	2 3/4"	← 75kg / 165lbs	\$595

7'6" The 7'6" is a nicely balanced, wonderfully styled tri-fun egg that performs like a gem. Perfect as a longboard for groms or an all-around funboard for intermediates, it continues to provide great fun for all who ride it. This is an ideal board for the recreational or weekend surfer who just wants to have fun.

7'10" The 7'10" puts the "fun" in Funboards. An all round board that works equally well cruising the small stuff with lightweights or driving down the line with larger riders. Don't let its racy looks fool you. While this hotrod is performance-oriented, it's forgiving enough for learning too. This design is a single board quiver for many NSP surfers.
