

MINI MAGIC

7'0" & 7'6" The Mini Magic is a scaled down version of the original Magic Model. This board performs as well in slow surf as it does on speedy beach breaks.

While the Mini Magic is smaller than the Magic Model it still maneuvers well out of turns while maintaining a forgiving nature. This board also has excellent nose riding capability.

An all around fun board! It is perfectly suited to the beginner who wants to get a board that they can ride for years as their level of expertise grows, as well the better surfer because the Mini Magic will be able to handle everything you throw at it.

MAGIC 3

The Magic 3 is basically the same board as the Magic Model, but with a more extreme design and an emphasis on maximum speed and maneuverability. The Magic 3 has a wider concave nose merging into the famous magic double concave tail. The rocker on the bottom curve is slightly flatter for even more speed and planing. Developed for maximum speed on a lined up wave, nothing goes faster.

7'6" Mini Magic	21 3/4"	2 3/4"	← 75kg / 165lbs	\$889
8'0" Wahine	22"	2 3/4"	← 85kg / 185lbs	\$1050
9'0" Magic 3	22"	3"	85kg / 185lbs +/- 5kg / 10lbs	\$1300

MAGIC MODEL The Magic Model is one of the most sophisticated Longboards ever designed. Originally built in 1981, the Magic Model was years ahead of its time and has become the prototype of the modern Longboard. The Magic Model has been tested and improved for over twenty years and today its performance is unmatched. The Magic Model is a great nose riding board, this is your all around performance Longboard, just as fun in small surf as it is in larger waves. The Magic Model is designed with a concave nose flowing to the middle of the board that transitions into double concave hulls extending to the tail with a moderate "Vee". The rails are hard in the rear and soften to the nose to maintain responsiveness in all conditions. Although the rails tend to be harder than most other Longboards, the unique bottom curve and beveled rails keep them from catching like most other hard rail boards. There are five 3 Phase Epoxy Technology Magic Models in the range.
