

THE SPOON - SLX

The Spoon maintains the classic single to double combination of our previous range, to offer a small wave fish in it's traditional form. However, to add some spice, it has been adapted to suit the quad set-up by slightly widening the tail and increasing the depth of the double concave in the tail. With the rounded nose there is nothing in front of you to even look at, so once you're on the four driving fins at the tail, this high performance fish will certainly fly. We have given this board 5 FCS plugs so you can ride it as a Quad or as a Tri fin.

All boards are glassed with a 2 x 4oz and a 3/4 length patch on the deck and 1 x 4oz bottom with a patch on the fin area. We give the boards either the silky smooth Pro finish and they come standard with FCS M5 Glassflex Series fins.
