

AF1 PRO

Aloha

The AF1 PRO is a high performance modern short board ideally suited to surfers of intermediate to advanced skill level. This board was developed to satisfy the needs of the Aloha Pro Team and is the preferred design used on the ASP World Tour by surfers such as Richie Lovett, Luke Munro, Mark Mathews, Matt Bemrose and Zahn Foxtan. Every inch of this board has been refined through rigorous testing and detailed feedback to ensure exceptional reliability and performance.

This model features all the bells and whistles; a rounded squash tail, refined foil and rail volume, smooth responsive rocker and a full length concave the combination of these design elements make The AF1 PRO the ideal board for critical turns and tight pocket surfing.

The AF1 PRO has everything you would expect from a pro model board; speed, response, maneuverability and quick rail-to-rail transitioning. Considered the diamond of the Aloha fleet, this board will take you to the next level.
