

STAND UP PADDLE

10'0" Model is a performance orientated waveriding SUP board. Designed for experienced paddler, its curvy outline makes a stable board that curves and cutbacks beautifully in the surf. Additionally, lightweights can easily use this as their all-around design. **10'6"** This compact SUP was developed for beginner riders under 70kg/155lbs. Additionally, it works well for larger, more experienced surfers that have progressed beyond high volume boards. The unique length/width combination creates a stable board that's fun in small surf or flat water. **11'0"** Is the perfect first board to enjoy the exciting sport of Stand-Up Paddleboarding. Developed for cruising, cross-training, and small waves, its generous shape accommodates all levels. **11'6"** was developed for riders over 100kg/220lbs. This full-sized, high volume SUP was designed to handle the largest of riders. Its stability is unsurpassed making it an excellent choice for schools and rentals. All boards come with full length deck grip and inbuilt carry handles.
