

F4

The F4 is the next generation in performance Longboarding. This board is light, thin and fast, with a Quad fin option for those looking to loosen things up and take speed to the next level. This board is super fast, and carves off the bottom like a knife with its pin-tail template and hard edges in the tail. The 17" nose will even let you sneak in a quick noseride! This is one for the performance guy looking for great off-the-tail performance, and down-the-line speed!

Broken Checkers
